

Matthew C. Shill

Founder & CEO | Music Educator | Full-Stack & AI Engineer

Mattshill22@gmail.com • C: (585) 794-1114 • linkedin.com/in/mattshill • github.com/Matthew-Shill

EDUCATION

University of Miami Frost School of Music — Bachelor of Music in Music Business (GPA 3.8) *Aug. 2014 – May 2018*

- Minors in Guitar & Piano Performance

University of Rochester Eastman School of Music — Private Jazz Piano Study

Aug. 2010 – July 2014

- Trained under Paul Hoffman, Chair of Jazz Piano & Composition, developing high-level musicianship and compositional skills

WORK EXPERIENCE

Musikkii, Inc. — Founder & CEO

2025 – Current

In Development

- Founded and am building Musikkii, a full-stack web and mobile platform reimagining music education through technology, leading a small team through product, design, and development
- Architecting and developing core product features including an in-app DAW (digital audio workstation), live video conferencing for lessons, structured learning paths, and integrated practice tools
- Designing and implementing AI-driven interactivity across the platform, including personalized/adaptive lesson paths, an AI practice assistant for real-time student support, and agentic AI workflows that let users create songs directly within the in-app DAW
- Own the platform end-to-end: product vision, full-stack architecture, and hands-on development across frontend, backend, and database layers

Outlier — Coding Expert, Generative AI Trainer

Mar. 2024 – Current

- Collaborated on high-priority, deadline-driven projects, ensuring timely and high-quality delivery
- Developed sophisticated, clean code to enhance and optimize Large Language Model (LLM) databases
- Identified and corrected errors in LLM-generated code, maintaining high precision and reliability
- Contributed to the success of large-scale projects involving cross-functional teams

Matt Shill Music, LLC — Owner & Instructor

Jan. 2018 – Current

- Founded and independently operate a home-based music education business, teaching 25-50 students across piano, guitar, bass, drums, vocals and composition in multiple genres, including jazz and classical
- Own full business operations including client acquisition and lead generation, pricing strategy, and client communications, sustaining and growing the student base over 7+ years
- Offer comprehensive music services beyond instruction, including recording, live performances, and DJ services
- Specialize in audio engineering, mixing, and mastering, bringing technical precision to professional recording services

Warner Music Group — Pop/Rock Marketing Rep & A&R Intern

Aug. 2017 – Dec. 2018

- Gained valuable industry experience promoting and coordinating events for major label artists. Developed skills in artist management, event planning, and music promotion, enhancing ability to provide high-quality live music and DJ services for various events.
- Worked closely with established artists and industry professionals, developing a keen ear for quality music production and performance, and gaining insight into music trends and content creation that informs teaching methods today

CERTIFICATIONS

Meta Front-End Developer Professional Certificate • Meta Back-End Developer Professional Certificate • Google UX Design Professional Certificate

LANGUAGES AND SKILLS

Music: Piano, guitar, bass, drums, vocals, expert-level instrument proficiency, composition, cue sheet preparation (RapidCue), expert-level sight reading, expert-level music theory, live sound engineering, recording, mixing and mastering.

Frontend: HTML5, CSS (Tailwind CSS, Bootstrap), JavaScript, TypeScript, React (React Native, Next.js, Vite), React Router, TanStack Query, Radix UI, Swift.

Backend & Infrastructure: Node.js, Python (Django, FastAPI), Go (Chi), Supabase (PostgreSQL, Row-Level Security, Auth, Realtime, Storage, SQL RPCs, Deno Edge Functions), SQL (MySQL, PostgreSQL), NoSQL (MongoDB, SQLite), Strapi, Docker, pnpm monorepos, Git.

Platform & Integrations: Stripe (Checkout, Subscriptions, Connect), LiveKit, Resend, Checkr, Kinde, Plaid, Sentry, OpenSheetMusicDisplay, Tone.js, SmpIrr.

AI: Machine Learning, Large Language Models, Anthropic API, agentic AI workflows.

Testing/Deployment: Vitest, RTL, Vercel, Render. | Spanish: Conversational, Reading/Writing Fluent.
